

Registration Flow

Let's get started with DBSync Cloud Replication and CDM Version 6.x registration flow.

Quick Start with DBSync Replication Registration Flow

This quickstart shows you how to get started to registration flow under DBSync registration platform with 3 different editions like Developer, Enterprise for On-Cloud and Enterprise for On-Premise.

The DBSync replication is offering you to connect the source apps like Salesforce and Microsoft CRM with different databases like **MySQL, SQL Server, Oracle, DB2, PostgreSQL, Cassandra, Redshift, Sybase and MongoDB**.

Steps for Registration

Follow these simple ten steps to register in DBSync replication portal.

1. Simply logon to the DBSync website www.mydbsync.com to start your free trial developer edition.
2. Next, go to the My Account section in DBSync website and click on Customer login to redirect you to the login page to create an account.
