

Release-7.4.2

Bug

[DR-1475](#) [SaaS BR] Unable to view Metadata backup files

Unable to view the Metadata files under the Metadata tab though the backup is successful.

[DR-1464](#) [OnPrem] Data Masking issue with Decimal data

[DR-1461](#) [on-prem Replication]

Few objects show success with snowflake DB even though no records were synced

[DR-1460](#) Snowflake_beta - 500 Internal server error message shown while accessing global logs page

clicking on the global log page icon again then "500 Internal Server Error" is shown.

[DR-1472](#) [OnPrem] DBSync CDM build version is missing on the UI

The version can not be seen after logging in to the application
